ARCHIE SONIC COMICS – BEGINNER’S GUIDE Archie Sonic the Hedgehog is the longest-running comic book series based on video games, it was even listed in The Guinness Book of Records. In the spent of 24 years since 1992 more than 500 issues have appeared if we count all the sub-series. It is a huge number that can easily scare away potential readers. But the series is a really fun ride! Archie Sonic comics had it all: comedy, drama, action, all with its ups and downs. Sometimes it was epic as heck, sometimes it resembled cringey fanfiction. Archie Sonic is a phenomenon that will never happen again. What order is the best to read all these comics? Where is the best place to start, which arcs are the most interesting and important and which stories can be safely skipped? It depends on what are you expecting to get! CLASSIC ERA [1992-1999] The very young hero Sonic and the team of Freedom Fighters lead a rebel lifestyle, fighting the tyranny of Dr. Robotnik. No matter how gloomy this plot may sound, the early stories are as naive and carefree as possible: not a single page without a pun. Watch as the comics evolve from a simple and playful adaptation of the Sonic SatAM animated series into increasingly serious and dark stories. ADVENTURE ERA [1999-2006] In issue 71, Sonic’s pupils turn green, which marks the transition to a new era of adventure, during which the comic revealed many unexpected lore details. The era also covers the final chapters of the Knuckles the Echidna sub series and several Super Specials. MODERN ERA [2006-2013] Starting with issue 160, the comic book series had a new main writer: Ian Flynn, a devoted fan who has seized upon the dream of creating stories about the blue hedgehog officialy. The personalities of the characters are finally becoming more and more similar to their videogame counterparts, and the comic book universe carefully adapts the details of the lore from the video games. Alongside with Sonic the Hedgehog, the Sonic Universe sub series begin, which actively expand the world of the main series. SUPER GENESIS WAVE – REBOOT [2013-2016] Legal litigations with Ken Penders, a former Sonic comics writer, forces the publisher to take a desperate step and (kind of) reboot of the entire series, linking it to the events of the story. After an experiment by Dr. Eggman, many characters from the past are erased from existence, and the memories of the main heroes are slightly clouded. This era is perhaps the easiest entry point into the Archie Sonic comic book series for the most new readers. Minimum confusion, plenty of game references and an amazing reimagining of the Sonic Unleashed story, all with great dialogues and superb art. For the complete immersion it is better to read both lines in parallel: Sonic the Hedgehog and Sonic Universe. There’s also some mini stories in Sonic Comic Origins designed to give readers insight into the prequel stories of various characters as they occurred in the new timeline. SONIC & MEGA MAN [2013 and 2015] A large-scale crossover between Sonic and Mega Man, consisting of two parts: Worlds Collide and Worlds Unite. You can enjoy this epic apart from the main plot, so if you like Mega Man and other Capcom characters, be sure to check it out! OTHER Archie Sonic comics started as a cartoon adaptation, and with brand new Sonic cartoons, new tie-ins appeared based on them: Sonic X and Sonic Boom. These titles take a more comedic approach and are (almost completely) not connected to the main series’ plot. Finally, there’s the Sonic Mega Drive series which lasted only for 2 issues centered around Classic Sonic. Mobius Encyclopaedia is a collaborative project to create the most definitive, accurate, and accessible encyclopedia and reference for everything related to the Archie Sonic the Hedgehog universe. Mobius Encyclopaedia started in September 2007, and currently consists of 3,374 articles! Spoilers Warning Articles on this website contain spoilers from all issues. Read articles at your own risk. END OF AN ERA, START OF ANOTHER After an incredible 24 year run, Archie Comics Sonic the Hedgehog comic book series is now sadly a thing of the past. But Sonic’s adventures in the medium of comics are still going strong. For information pertaining to the current Sonic comic book series by IDW Publishing and its own continuity-completely separate from that of the Archie run-please visit our sister site, IDW Sonic Hub, or Sonic Wiki Zone's articles on IDW Sonic. You may also be interested in checking out the Fleetway Sonic the Comic wiki, a comic series similar to Archie Sonic's early days which was cancelled in 2002. Browse Mobius Encyclopaedia To all new users: If you are unfamiliar with how to make properly formatted contributions, please visit the Manual of Style page, the Referencing page, and the Help Editing page to ensure your edits are meeting the site's standards. It is standard site policy to delete contributions from users who repeatedly make contributions that blatantly do not fit the site style and format. See the FAQ page for more information. This is the intended site layout. Princess Sally Acorn is the daughter of King Nigel Acorn and leader of the Freedom Fighters. Born as the heir to her fathers throne, she was taken, as a child, to the sanctuary of Knothole Village in the Wood Zone by her Nannie Rosie Woodchuck when her father was betrayed by his royal adviser, Dr. Eggman and led the Freedom Fighters on many field missions against the scientist when he took power after banishing the King to the Special Zone. After King Acorn was rescued and resumed his role as king, Sally continued to lead the Knothole Freedom Fighters in the ongoing battle against the Eggman Empire. Scourge the Hedgehog Scourge the Hedgehog (formerly known as Anti Sonic or Evil Sonic) was an evil version of Sonic the Hedgehog from Moebius. Unlike Sonic, Scourge mistreated others, was selfish and greedy, and had a great desire for power. Originally, Scourge, like all other alternate versions of Sonic Prime, looked identical to him, differing only in personality and attire. All this changed when Scourge, in a failed attempt to steal the Master Emerald with Rouge the Bat, sampled the Emerald's power and was permanently changed. Shortly thereafter, Scourge's methods changed as well: from small time hoodlum and mercenary to a villain determined to carve out his own path and completely distinguish himself from Sonic. For most of his criminal career, he led the Suppression Squad-previously known as the Anti Freedom Fighters-before becoming the leader of the Destructix. You can find a list of previous featured articles here! Issues Sonic the Hedgehog #252 The first issue following the Super Genesis Wave rebooting the comic series. This new continuity goes on to introduce a new world more in-line with the games, new more streamlined designs for the existing characters who have been retained, as well as all-new characters. Sonic Universe #1 The first issue in the Sonic Universe series - continuing on from the story of Archie Sonic X Issue 40 which itself was connected to the story of Archie Sonic the Hedgehog Issue 196. You can find a list of previous featured issue articles here!
